

# OSNI 1:250,000 SCALE RASTER

## What is 1:250,000 Scale Raster?

The 1:250,000 scale raster map provides an excellent overview of Northern Ireland, including the border counties of the Republic of Ireland. It includes features such as roads, golf courses, settlements and sites of interest. A black and white outline version is provided along with a full colour image. The mapping is also available as the 'Ireland North' paper map, which is part of the 'Holiday Ireland' series.

Raster mapping is a digital image created by a series of pixels that combine to form the map.

### PRODUCT INFORMATION

- Complete coverage of Northern Ireland and the border counties of the Republic of Ireland
- Georeferenced: Irish Grid co-ordinates can be found for any point on the map using GI software and can be used with other OSNI mapping data
- Colour relief presentations provide a clear indication of terrain height
- This product is cartographically identical to the paper 'Holiday North' map

### Key Features:
