

OSNI 1:25,000 SCALE ACTIVITY RASTER

What is 1:25,000 Scale Activity Raster?

An award winning series of six 1:25,000 scale raster maps tailored to outdoor leisure activities that are also available as a paper product. The series consists of the Mournes, Sperrins, Lough Erne, Strangford, Glens of Antrim and Causeway Coast and Rathlin Island. They are individually designed for each specific area and show details of features such as tracks, walks and leisure activities; the Lough Erne map concentrates on water activities, showing navigation guides and hydrographic information.

Raster mapping is a digital image created by a series of pixels that combine to form the map.

PRODUCT INFORMATION

- This series of 1:25,000 scale paper maps, designed for outdoor enthusiasts includes all the features associated with outdoor pursuits
- 6 maps with different features for each area
- Lough Erne Activity Map – Includes a navigation guide for Lower and Upper Lough Erne, with an easy-to-follow hydrographic information
