

# OSNI 1:12,000 SCALE RASTER BELFAST STREET MAP

## What are Street Maps?

The OSNI Belfast Street Map is a high-resolution raster map at 1:12,000 scale showing clear street level detail for use in any geographic information software. It covers the entire Greater Belfast area and is also available as a paper map. A street gazetteer referenced to Irish Grid is provided with both the digital and paper versions.

Raster mapping is a digital image created by a series of pixels that combine to form the map.

### PRODUCT INFORMATION

- Geo-referenced: Irish Grid co-ordinates can be found for any point on the map using GI software and can be used with other OSNI mapping and address data such as Pointer.

### Key Features:

- Road names
- One-way systems
- Railway lines
- Car Parks
- Churches
- Schools
